DETAILED ACTION

Drawings

1. Formal drawings are now required.

Allowable Subject Matter

2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the method of claims 1-2 is the inclusion of, among other features/steps, isolating an ADC from the CMOS imager; applying a plurality analog voltages to the isolated ADC; and measuring and storing a difference between an output from the isolated ADC and a reference value associated with the analog voltage being applied to the isolated ADC. For claims 3-12, the prior art also fails to teach or suggest a circuit that includes the test switch, test switch control line, and measurement circuit as recited in claim 3 for performing the claimed method associated with the circuit. Therefore, claims 1-12 are allowed.
